A little of me :

What would be your ideal vacation?

Asia is vast. Although I'm asian, I don't know much about Asia.

My ideal vacation would be a trip across Asia to discover the different cultures, foods or lifestyles.

What do you do for fun?

I'm a fan of japanese animation, manga, music and movie.

I enjoy spending my time watching series or reading on my phone.

What is one feature of character you want to keep, and one you wish you could change?

I like things to be in order, it's my manic side.

I know I'm not very sociable but I give my best to improve myself.

What is the world's most serious problem?

In my opinion, nobody wants to say it but the world's most serious problem is overpopulation.
